

No. 221 TYPE RELAYS

(Card No. 1)

For detail information, spring combinations and winding arrangements, see following cards.

FRONT

TERMINAL VIEW

NO. 221A ALSO GENERAL DESIGN AND DIMENSIONS OF
NO. 221 TYPE

(*) This dimension varies according to the number of
contact springs on the individual relays.

Single arm armature horizontal type relays intended to mount in the left hand drillings of No. 985A or similar type mounting plates.

Insulated from the mounting plate.

New and repaired relays do not vary more than plus or minus 5% from the rated resistance, except where otherwise noted.

Equipped with heavy contacts.

Closest recommended vertical mounting centers are 1-1/4 inches but 1-5/16 inches are recommended where space permits. Closest recommended horizontal mounting centers are as indicated in the tabulated information on the following cards.
